

Mobile Applications

Sesam 800 Mobile

Specialy for mobile applications as Winches, ATV's tail lifts

Features: fast response, IP 67, For extreme environments, 12 channel automatic frequentie, Duplex, 2 or 6 push buttons, 5 mW,
Receiver: fast response, IP 67, For extreme environments 12 channel automatic frequentie, Duplex, 10-24 v dc Output 6 10-24 v dc (3A contionous), 869-700-870.0000 MHz

Sesam 800 Door opener Family

Features: IP 67, 5 mW, 3-15 buttons, Specialy designed for industrial doors, Long life push buttons, 1000.000 cycles moments, area coding

Receivers: 3 relays, 12-24 V ore 230 v, 100-500 transmitters, Detachable memory card

HYDRAULIC AND ELECTRIC SOLUTIONS

Akerströms

A Swedish brand which is leading in the Northern European countries.

They produce standards and special remotes with the highest quality.

Features are:

- High quality
- Fast building of specials
- Customers logo's possible
- Watertight and rugged housings
- Ergonomical design
- With or without, cable connection or display.

We can help you with development and with turn key projects!

Remotus Jupiter

Push button transmitters and Joy-stick

Jupiter 10 Jupiter 8 Jupiter 100 Jupiter 150

Remotus Special line for: Control risky processes on safe distance, Good overview, Possibility to stand close to the lifting process, Mobility, In used within all industry, big Buttons for use with gloves, portable configuration by CIM card, double microprocessor, 433/434 frequency, IP 65, 8 or 10 two stage buttons or Joy-sticks, option for 400 mW.

Remotus Mercury

Push button transmitters (custom made buttons)

Mercury 8 Mercury 10 Mercury 9 RS Mercury 12

Features: Specials are also available, big Buttons for use with gloves, portable configuration by CIM card, double microprocessor, 433/434 frequency, IP 65, 8, 9 or 10 two stage buttons, option for 10- 500 mW.

Joysticks Transmitters

Mercury 100 Mercury 300 Mercury 500

Features: big Buttons for use with gloves, portable configuration by CIM card, double microprocessor, 433/434 frequency, IP 65, Joy-sticks with buttons, option for 400 mW.

Remotus 7000

Remotus Push button transmitter BC-74

Standard with pre-programmed selections. Well suited for hoists, mobile applications and control of smaller machines. General frequencies.

- Big Buttons for use with gloves
- Portable configuration by CIM card
- Double microprocessor
- 405-470 MHz
- 2,4 GHz alt
- Bluetooth frequency
- IP 65
- 9 two stage buttons
- Option for 10-500 mW

Receivers

Remotus Mobile applications

RX-82, RX-182, RX-MS, RX-MSLink, RX-MSignal

Features: products for mobile applications, General frequencies: 434, 868, 915 and blue tooth, Complies with EN 954-1, category 4.

Receiver CU 77

T-RX 28 JB Remotus

Features: big Buttons for use with gloves, portable configuration by CIM card, double microprocessor, 405-470 MHz 2,4 GHz alt, Bluetooth frequency, IP 65, 8 two stage buttons and 2 joy sticks, option for 10- 500 mW, Small push button transmitter with joysticks

Remotus Paddle

Features: portable configuration by CIM card, double microprocessor, 405-470 MHz 2,4 GHz alt, Bluetooth frequency, IP 65, 6 Paddles, option for 10- 500 mW

Railways

Locomite 100

Features: 410-480 MHz, Outputpower <500 mW, IP 65, Min. 1000 m range in railroad environment, Tilt security, Fast response, European safety standard, EN 50239

Receiver: 19" rack.
We can also supply the Shranks

Receivers

T-RX 100 (can open), T-RX 1000, T-RX 1500

Features: 2 cpu design, 10-32 v Dc, IP 67, Small and strong body, they have the usual connectors
Compatible transmitters: Mercury 12, Mercury 100, Mercury 300, Mercury 500, Remotus Paddle, Remotus T-Rx28
